HOW YOUR CONTRIBUTIONS HELP

- It's estimated in 2024 that **780 Saskatchewan women** will be diagnosed with breast cancer. A projected **180 women in Saskatchewan** will lose their lives from breast cancer each year.
 - **Understanding how breast cancer develops and why it spreads** is a key focus of the Saskatchewan Cancer Agency's research team.
 - Last year **37,000 screening mammograms** were provided through the Screening Program for Breast Cancer. It's the **number one diagnosed form of cancer in women**, and very treatable if detected early.
 - **Every dollar raised stays in Saskatchewan** to support research and find new treatments and programs for breast cancer that helps save lives. All money raised will be donated to Cancer Foundation of Saskatchewan, the fundraising partner of Saskatchewan Cancer Agency.
